The individual went for COVID-19 screening test on 22nd November 2020 after she fell sick and was on medical leave since 20th November 2020. The individual was confirmed positive for COVID-19 by the hospital on 24th November 2020 and the Ministry of Health has made the arrangement for the patient to be sent to the hospital for treatment.

The Management of Northport has instructed the employer to take immediate and appropriate actions including contact tracing. All close contacts will undergo COVID-19 test and self-quarantine in accordance with the advice of the Ministry of Health Malaysia. Northport has also carried out thorough disinfection of all areas exposed to the risk of transmission, in accordance with the guidelines of the Ministry of Health Malaysia.

As the port sector is categorized under the nation's essential services, Northport's business operations will continue to operate as usual to ensure that the national economy and the movement of basic needs of the Malaysian public are not interrupted.
